NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fire Protection Grant of Pierre Part-Belle River Volunteer Fire Department received from Assumption Parish Police Jury have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the fire department's accounting policies are described below.

FINANCIAL REPORTING ENTITY - On April 18, 1991, the Assumption Parish Police Jury entered into a grant agreement with Pierre Part-Belle River Volunteer Fire Department of Assumption Parish. The fire protection grant was for the purpose of acquiring, maintaining, and operating buildings, machines, water tanks, water hydrants, water lines and any other things necessary to provide proper fire prevention and control of the property within the boundaries of the department.

The volunteer fire department is a privately created quasi-public corporation that is subject to the grant provisions of its funding agency. The board members are not appointed by the police jury. The volunteer fire department is not fiscally dependent on the police jury and the nature and significance of their relationship with the police jury is not such that their exclusion would render the police jury's financial statements incomplete or misleading. Therefore, the volunteer fire department is a separate special purpose government.

The accompanying financial statements present information only on the fire protection grant received by the fire department from the Assumption Parish Police Jury and do not present information on the Police Jury, the general government services provided by that governmental unit, and other governmental units that comprise the Police Jury's reporting entity, nor any other non grant funds received by the fire department. Pierre Part-Belle River Volunteer Fire Department of Assumption Parish has no component units.

FUND ACCOUNTING - The fire department is organized and operated on the basis of a fund and account group whereby a separate, self balancing set of accounts is maintained that comprises its assets, liabilities, fund equity, revenues, and expenditures.

SPECIAL REVENUE FUND - The special revenue fund is used to account for the proceeds of specific revenue sources that are legally restricted to expenditure for specified purposes.

MEMORANDUM ONLY-TOTAL COLUMN - The total column on the balance sheet is captioned Memorandum Only (overview) to indicate that it is presented only to facilitate financial analysis. Data in this column does not present financial position in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation.

BASIS OF ACCOUNTING - Basis of accounting refers to when revenues and expenditures are recognized and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied. The fire department's records are maintained on a cash basis of accounting. However, the fund, as reported in the accompanying financial statements, has been converted to a modified accrual basis of accounting using the following practices in recording revenues and expenditures:

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Revenues are recognized in the accounting period in which they become susceptible to accrual-that is when they become measurable and available to finance expenditures of the fiscal period.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

BUDGET PRACTICE - The fire department adopts an annual budget based on anticipated revenues consistent with generally accepted accounting principles. Annual appropriations of funds are not made. Budgetary accounts are not integrated in the formal accounting system. Encumbrance accounting is not followed because of the small number of transactions involved.

CASH AND CASH EQUIVALENTS - For reporting purposes, cash and cash equivalents include cash, demand deposits, and time certificates of deposit. Amounts are classified as cash equivalents if the original maturities are 90 days or less. Under state law, the department may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana and national banks having their principal offices in Louisiana. Further, the department may invest in time deposits or certificates of deposit of state banks organized under Louisiana law and national banks having principal offices in Louisiana.

GENERAL FIXED ASSETS AND LONG-TERM LIABILITIES - Fixed assets are accounted for in the general fixed assets account group. No depreciation has been provided on general fixed assets. All fixed assets are valued at historical costs. The account group is not a fund. It is concerned only with the measurement of financial position and does not involve measurement of results of operations. It is the policy of the department not to capitalize interest. As the department has no infrastructure assets, no accounting policy for infrastructure assets has been adopted.

PENSION PLAN AND VACATION AND SICK LEAVE - All members of the fire department are volunteers. Therefore, the fire department does not contribute to a pension plan and does not have a formal vacation and leave policy.

The capital lease entered into during the year ended December 31, 2005 is for a fire truck used in the fire department operations. The payment term of the capital lease is for four years at an interest rate of 4.1942%. The capital lease agreement contains a non-appropriation clause; therefore, in the event that insufficient funds are budgeted for the purposes of funding the capital lease obligation, the fire department (lessee) can terminate the lease arrangement with the lessor upon notification in writing.
